## **7 Signing On For Competitors**

Prior to taking part in their FIRST event of the year each competitor must log on to the RevUp entry portal and upload a photograph of their race licence. This can be done by going to the "Notifications" tab on RevUp dashboard.

The form relating to a driver's personal equipment such as helmet, overalls and FHRs must be completed by going to the "My Details" tab on the RevUp dashboard and completing the "Competition Info" section. The form relating to vehicle equipment such as harnesses and fire suppression systems must be completed by going to the "My Vehicles" tab, then clicking on the appropriate car and filling out the "Equipment Details" section.

Prior to taking part in the event, drivers must sign on for the meeting. Sign on will open 7 days prior to the event start for drivers who have booked and paid for a given race. This can be completed by going to the "Sign On" tab of the RevUp dashboard.

Alternatively, a PDF version of this form can be downloaded from the Motorsport UK website by going to the following link:

These are MANDATORY and will take place at 8.15am and 9.00am in the Briefing Room (next to Garage #0) on Saturday AND Sunday morning.

These meetings will cover useful information on particular features relevant to this circuit and how the meeting will operate. If a new driver has specific questions in the first instance please contact the club via email.

## 11 Circuit Access

### 11.1 Vehicles in garages

You will access the circuit via the Assembly Area.

### 11.2 All other competitors

You will access the circuit via the Assembly Area.

## 12 Qualifying

Qualifying will take place as per the timetable. It is the driver's responsibility to be ready at least 20 minutes before their timetabled session. Drivers should go to the Assembly Area 20 minutes before published times unless otherwise instructed and then when directed by the course marshal they should proceed onto the circuit. If there is adverse weather such as fog in the morning, practice may be conducted behind the safety car with drivers being gridded in order of championship position where applicable.

Double Header Races: Unless championship/series regulations stipulate otherwise, grids for the second race of a Double header event with only one qualifying session will be based on the second fastest qualifying times. For Triple Header Races unless championship/series regulations stipulate otherwise, the grid for the third will be set by the results of Race 2.

**116 Sprint + 120 Coupe Cup:** Session A will set the grid for Race 2, after 10 minutes a chequered flag will be shown and ALL cars will return to pitlane. Shared cars will then be permitted to change a driver with Session B commencing once all cars have returned to pitlane. Times from Session B will determine the grid for Race 9. Teams must inform the Race Administration Team which driver is participating in each session prior to 8.30am on Saturday morning.

## 13 Race Start Procedure / Grids / Safety Car

All start procedures will be as per these instructions. It is the competitor's responsibility to ensure that they are ready in good time. Under ideal conditions the racing programme may be brought forward by up to 20 minutes. Grids will be formed as per Championship/Series Regulations and the terms of the Circuit Licence.

In the event of circuit light failure for either start type the Union/National flag will be used to start all races.

Where races are set for a time duration, the Chequered flag will be shown to the race leader the first time he passes the Finish Line after the time has elapsed.

### 13.1 Standing Start

All competitors will be directed onto the grid. The marshals will then direct you to the correct qualification grid position. **For races WITH a Green Flag Lap** (see timetable) once all drivers are stationary there will be a one minute countdown; 30 second board and then the cars will be flagged away for the green flag lap. Once this lap has been completed and vehicles are stationary, the 5 second board will be shown, the red lights will be displayed and at some time between 2 and 7 seconds the red lights will switch off – signalling the start of the race. **For races WITH NO Green Flag Lap** after the 30 second board the 5 second board will be shown, the red lights will be displayed and at some time between 2 and 7 seconds the red lights will switch off – signalling the start of the race.

### 13.2 Rolling Start

Cars will be pre-gridded in the Assembly Area then released to the grid, where there will be a countdown followed by the start of the Pace Lap. Cars should remain in their correct grid positions throughout the lap and avoid unnecessary weaving. At the completion of the Pace Lap, if the Clerk of the Course instructs the Pace Car to switch off its lights and enter the pit lane then the pole position car will assume the role of Pace Car until the gantry lights are switched out. This will signify the start of the race.

Any cars accelerating or holding back before the start may be penalised for being out of position at the start. Whilst on the Pace Lap only, the Clerk of the Course may decide that the formation is not satisfactory and may then abort the start by not extinguishing the gantry lights. The Clerk of the Course will then instruct the Pace Car to do a further lap. If after that lap the Clerk of the Course is still not satisfied, the cars must return to the start line behind the Pace Car which will still have its roof lights on. A decision will then be made as to when to attempt a further re-run of the start. The race duration counts down from the time of the first attempted start. Any aborted starts will therefore reduce race duration.

The following Championship/Series will use a Rolling Start:

**Bikesports, Roadsports, Trophy**

### 13.3 Safety Car Intervention (ALL PRACTICE SESSIONS & RACES)

The Clerk of the Course will have the facility for the use of the safety car in ALL practice sessions and races. It is the driver's responsibility to make sure they are fully aware of these regulations. The safety car will access and exit the circuit via the pit lane and safety car boards will be shown from the Start line gantry.

## 14 End Of Track Session Procedure

### 14.1 All Races

At the end of each track session be it qualifying or the actual race, all vehicles must slow down after taking the chequered flag and leave the circuit via the Pitlane and then proceed as directed by officials.

### 14.2 Parc Ferme

Parc Ferme for all races will be next to the Scrutineering Bay. Access to parc fermé is restricted to drivers only. Drivers under 18 must be accompanied in parc fermé by the parent or guardian who has signed on for the event. Parc Fermé conditions apply at all times after taking the chequered flag until cars are released by the scrutineers. No work may be carried out on any vehicle without the permission of a scrutineer or official. Failure to comply with the above, or with the instructions of any official, may result in penalties as per C 2.1.1 being applied.

14.3 At the end of your race, presentations will be carried out in accordance with championship/series regulations Please follow instructions of championship / series coordinators and Formula Reps etc. In the case where the presentation does not take place competitors should report to the Paddock/Race Secretaries office.

## 15 Judges

Judges may be appointed as MOTORSPORT UK Competitors Yearbook [Q3.1].
